ADDRESS ALL CORRESPONDENCE TO
P. O. BOX 500, GARDENA, CALIFORNIA

November 29, 1954

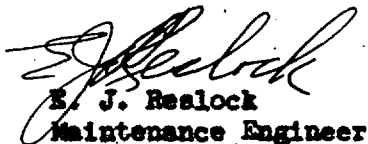

Mr. A. M. Rawn
Chief Engineer
Sanitation District No. 8
Los Angeles County
2020 W. Beverly Boulevard
Los Angeles 57, California

Dear Sir:

We have been asked by the Federal Facilities Corporation to obtain documentary evidence showing ownership of all our offsite facilities. These facilities, such as pipe lines and utilities, were installed as a part of the Synthetic Rubber program in 1942. We are particularly interested in the sanitary sewer in Vermont Avenue and James Street, which was installed by Green Company for Stone & Webster Construction Company on Private Contract No. 197, Job No. 6451 and Road Permit No. 350487.

The Department of County Engineer and Surveyor referred to you as having jurisdiction over all such sewers. We have, therefore, assumed that this sanitary sewer was dedicated to Sanitation District No. 8 but have been unable to find the necessary documents to confirm our assumption. We would appreciate a copy of this dedication or any document which gives you title to this sewer.

Sincerely,

E. J. Reslock
Maintenance Engineer
